## Reversals Prompt U. S. Needs Danforth, Arab Peace Move Ohio Congressman Says

Associated Press Writer BEIRUT, Lebanon (AP) — Fierce Jordanian army attacks were reported to have broken Palestinian resistance in northern Jordan today and Amman radio said 5,000 guerrillas had surrendered. A new peace move was launched by the Arabs.

Two Palestinian leaders left Cairo for Damascus to try to win approval of a cease-fire from Yasser Arafat, the guerrilla chief. He rejected the cease-fire Wednesday. They were expected to meet him in the Syrian capital.

The two Palestinians were among captured guerrilla leaders

released by King Hussein of Jordan. They flew to Cairo with a four-man Arab peace mission Wednesday night.

Fighting slackened in Amman, Jordan's capital, after a flare-up during the morning, and was confined to pockets of guerrilla resistance. This cleared the way for the evacuation of Americans and others from Amman. A chartered Middle East Airlines plane landed in Amman to bring out 100 Americans and other foreigners.

Ambassador John Phillips of Britain reported to his government that the Amman airport and its approaches were

open and working.

In the north, where the Jordanian army reported it drove out invaders from Syria Wednesday, Palestine guerrilla resistance was broken, Israeli observers across the border reported.

The fighting centered in and around Irbid, Jordan's second largest city 50 miles north of Amman. Israeli observers said the Jordanian army opened up with a heavy artillery barrage.

They said that after the shelling ended, Jordanian troops pursued the guerrillas. One source described the activity as a "pogrom," and said the guerrillas were afraid and were giving up.

The main Syrian force withdrew across the border, the informants said, and was centered near Deraa in southern Syria. It left behind 25 damaged or destroyed tanks and a number of armored personnel carriers, they reported.

The broadcast warned residents to be wary of mines in the streets and report their discovery to the army.

### Collection of Coins Stolen

The residence of Charles Fausett, 245 East Gladys, was broken into earlier this month. A coin collection with face value of \$1,540 was reported stolen. Fausett did not estimate the collections value as collector's items.

He is offering a \$100 reward for information leading to an arrest and conviction. The money represented an eight-year collection by his son, David.

The collection contained a \$20 gold piece, a \$10 gold piece, about 78 silver dollars, 22 \$2 bills and 20-cent pieces, half dimes, barber nickels and other silver coins.

MINER — The United States needs strong men, such as Missouri Atty. Gen. John Danforth, Republican, in the U. S. Senate to support President Nixon, Congressman Clarence Brown, Ohio Republican, declared Wednesday night.

Brown spoke at a \$10-a-plate GOP dinner meeting at the Ramada Inn as a substitute for U.S. Sen. John Tower of Texas, who was unable to keep the appointment because of activity in Washington.

"We need a Congress that will work with the President. The Congress you elect in November can make all the difference on American life in the decade ahead," Brown asserted.

Danforth, Republican nominee for the U.S. Senate, charged incumbent Democrat Sen. Stuart Symington with being one of the "Major participants in the new national game called 'breaking the President.'"

He referred to Symington as a "constant, carping critic of the President" and charged his opponent's attacks were "aimed to further his own political motives, and have served only to add to the tension and disunity of the nation."

Danforth declared the Democrats are falling apart in Jefferson City and "Republicans have an exceptional chance to score a smashing unprecedented victory in November."

Danforth paid tribute to Al Sikes, a Sikeston native, who has served as an assistant to the attorney general's staff and is heading Danforth's campaign.

"I hope you are as proud of Al Sikes as I am and for the job

he has done," Danforth said.

Brown referred to Danforth's opponent in four instances as that "senior-senior senator" who has not necessarily led the country into its problems, "but his friends did. He didn't do much about them."

Symington is 69 years old, Danforth is 34.

Brown emphasized America's people are "fed up" with the "Old men in Washington who are of a past era."

Brown pointed out that in 1968 people revealed their feelings of being "fed up" with the Vietnam War. He estimated there were 299,000 draft calls in 1968 company with 163,500 in 1970. Brown also cited the decreasing number of American troops in Vietnam and the corresponding decrease in American casualties since 1968.

"We have given the Vietnamese a chance to fight and win and we have maintained U. S. credibility in the world," the congressman said.

Brown said people looked for people with positive attitudes in 1968 and voted for people like Danforth.

Danforth stressed people's attitudes and said politicians in Missouri are widely viewed as "fakes."

He charged the government must be unresponsive to the governed and "the time has come to decentralize Federal government and return it to the states and local government. Closer to the people."

Danforth's speech was interrupted at this point with an ovation from the estimated 350 attending.

He continued by saying federal government has become

top heavy and "unresponsive." Danforth charged men in Washington have brought this about by making so many promises that have been unkept.

Why? "The government has oversold itself and made too many promises. It has offered solutions to everyone's problems and then not delivered," Danforth said. "The reaction has been that men in government are frauds, fakes, charlatans, snake oil salesmen. People have lost respect."

The plane of Kit Bond of Mexico, Mo., became grounded in Springfield and he did not attend the meeting.

Danforth said Democrats are "quaking in their boots" in fear that Bond, the Republican nominee for state auditor, will defeat incumbent Democrat State Auditor Haskell Holman.

Danforth said Gov. Warren E. Hearnes' statement in Sikeston made two months ago that the state auditor's office could be used in a "witch hunt" against Democrats if Bond wins was an admission on the governor's part that Democrats fear an independent auditing system, which he described as the "healthiest thing" that could happen to the state.

"That is why the candidacy of Bond is so important," Danforth said.

Gary Rust of Cape Girardeau, Republican candidate for the 10th District's congressional post, spoke about an "alarming breakdown" of law and order.

Rust is opposing incumbent Democrat Bill Burlison, also of Cape Girardeau in the November election.

ATA PRESS CONFERENCE at the Ramada Inn, following the John Danforth rally, Danforth, left, and Ohio congressman Clarence Brown, answered questions. Brown was the principal rally speaker, substituting for U.S. Sen. John Tower of Texas, who was called back to Washington. Danforth is the Republican nominee for U.S. Senator.

### FTC Calls Enzyme Ads Unfair, False

WASHINGTON (AP) — The Federal Trade Commission has called enzyme detergent advertising by three leading manufacturers "unfair, false, misleading and deceptive."

In a proposed complaint, the FTC said Procter & Gamble Co., Colgate-Palmolive Co. and Lever Brothers Co. Inc. were engaged in false advertising.

Procter & Gamble denied the accusation, though the other companies had no immediate response.

The three were given a chance to settle the complaint through a consent decree, if their future ads listed types of stains not removable by enzyme detergents. Boxes would also have to carry such lists, the FTC said.

Procter & Gamble is the largest enzyme detergent producer, with about 75 per cent of total sales. Lever Bros. has 15 per cent, and Colgate-Palmolive about 9 per

cent, the agency said. Procter & Gamble's advertising for Gain was termed by the FTC as typical of the allegedly false claims: "Stains are locked into fabric fibers. But Gain's enzymes act like little keys to unlock stains."

The company said it would contest the complaint. In a statement, it said, its enzyme products "remove a variety of common stains that heretofore were impossible to remove in the home laundry. We do tell American consumers about this capability in our television advertising."

The safety aspect of enzymes was not dealt with by the commission, which said investigations continue into the safety of enzymes in laundry products. Consumer advocate Ralph Nader is among those who have complained the enzyme products can lead to skin and lung diseases.

### Illinois Man Dies In 3-Vehicle Crash

David Allen Meyer, 35, East St. Louis, Ill., was killed in a three-vehicle collision Wednesday at 2:15 p.m. on highway 61, two miles north of Fruitland.

He was southbound in a 1969 Chevrolet, when a northbound 1970 International tractor trailer, driven by Edward Francis Watson, 47, Bettendorf, Iowa, went out of control, striking the Meyer car head on.

The tractor-trailer then struck another southbound car, a 1970 Dodge, driven by James

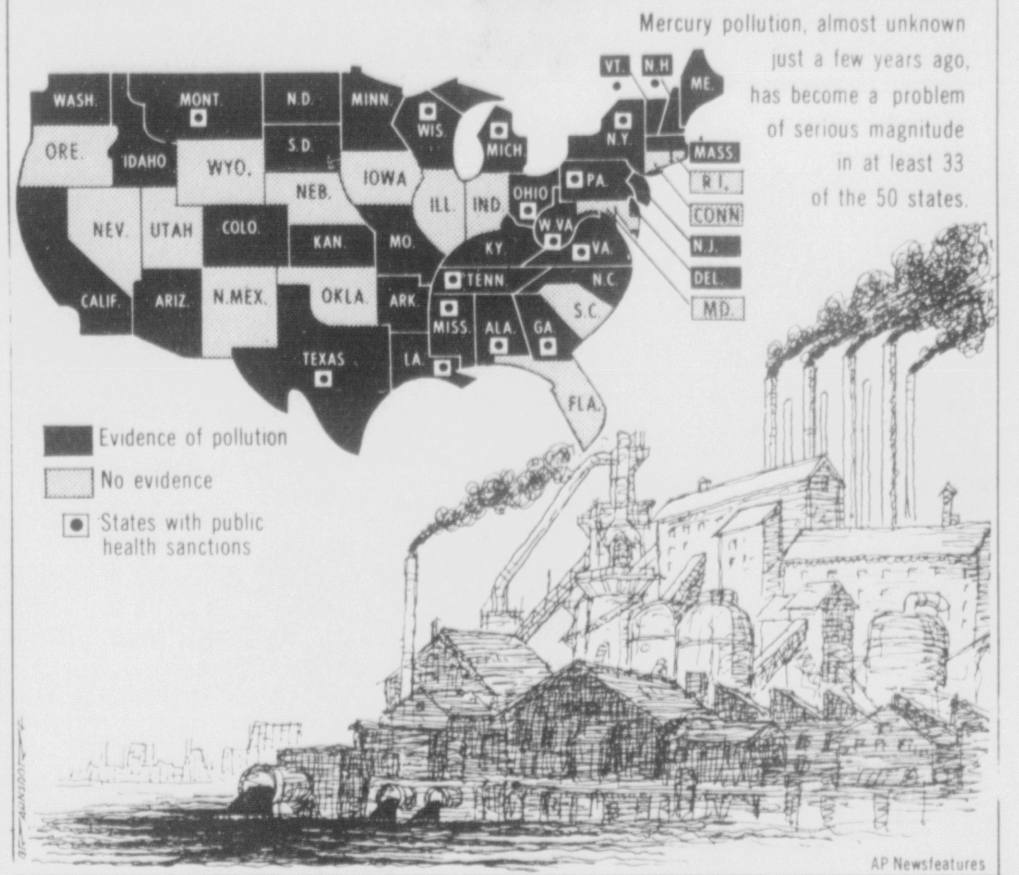

Arthur Williams, 26, Memphis. Meyer's body was taken to McCombs Funeral Home in Jackson.

Evie Williams, 23, wife of James Williams, received a shoulder and arm injury.

She was taken to Southeast Missouri hospital in Cape Girardeau.

Watson was given a summons for careless and imprudent driving and being on the wrong side of the road, the state patrol reported.

### MERCURY POLLUTION IS A WIDESPREAD MENACE

By THE ASSOCIATED PRESS

When the Canadian government banned the sale of fish caught in Lake St. Clair earlier this year and the Michigan state government followed the example a few days later, it was only the beginning of national attention paid to what seemed a brand-new menace that just appeared suddenly.

The menace was mercury pollution, and it did not appear suddenly. Studies hurriedly made since the initial mercury pollution scare have shown that of the 50 states at least 33 face the prospect of stopping the flow of the liquid metal into their environments.

A full-blown case of mercury poisoning can have gruesome effects. In the only documented case of mercury poisoning in this country, a New Mexico family ate pork from pigs which had eaten grain which had been treated accidentally with a mercury compound. Two children in the family lost their vision and lay in comas for months.

Mercury attacks certain internal organs and the brain and can cause paralysis and even insanity in addition to blindness. Recent Swedish studies indicate it can cause abortions and deformed infants as well.

The concentrations of mercury in Lake St. Clair were discovered by a Swedish chemist who was doing graduate work at the University of Western Ontario. He notified the Canadian government of his findings and it was discovered

that the Dow Chemical Co. was dumping 200 pounds of mercury into Lake St. Clair each day.

It is estimated that all of Canadian industry was dumping about 250,000 pounds of mercury into the Great Lakes each year, or roughly 700 pounds per day. Considering that total, 200 pounds daily by one firm in one lake -- a large lake but not one of the Great Lakes -- is no small amount.

Not all mercury pollution is so blatant. Mercury, liquid at room temperature evaporates readily and has a way of sneaking into the atmosphere. Mercury pollution has been found in such unindustrialized states as Vermont and New Hampshire, and no one is quite sure how it got there. Two theories, though, are that it precipitated out of the atmosphere as a sort of fallout, and that it is a residue of compounds painted on fallen timber 30 years ago to prevent it from rotting before it could be collected.

States that have found it necessary to impose restrictions of varying intensity against the selling of fish or eating of fish or game birds include the following: Alabama, Georgia, Louisiana, Michigan, Mississippi, Montana, New York, New Hampshire, Pennsylvania, Tennessee, Texas, Vermont, Virginia, West Virginia and Wisconsin.

Federally acceptable limits are one-half part per million in food and one-half part per billion in drinking water, so it does not take a great amount of the pollutant to render a stream a hazard. Mercury concentrations of as much as seven parts per million have been found in some fish and game birds -- far too high for human consumption, according to the government limit.

**Vandals Damage Four Cars, Shoes**

Vandals caused more than \$450 damage to four cars parked at Sikeston Service Station last night. Rocks were thrown through the windows of a 1963 Chevrolet, 1966 Chevrolet, 1960 Pontiac and 1961 Ford. The station is located at 868 West Malone.

John Sikes, owner of Sikes Sporting Goods, reported to police that the store was entered last night and two pairs of tennis shoes were damaged. Entrance was gained by breaking out a window in the rear of the store, but nothing was taken.

### Rail Strike Postponed

WASHINGTON (AP) — A threatened strike that could shut down the nation's railroads has been postponed two weeks to give negotiators more time to settle a dispute over elimination of firemen's jobs.

The postponement, worked out by the railroads and the United Transportation Union, was announced early today after negotiations continued past the 12:01 a.m. strike deadline.

"Naturally I am disappointed that no settlement was reached, but I am appreciative of the fact that further opportunity for negotiations now exists without an immediate threat of a strike."

# Cards Send Cubs Into Third Place

By PAUL LE BAR  
Associated Press Sports Writer  
ST. LOUIS (AP) — Thunder shook Busch Stadium Wednesday night but none of it emanated from the bats of the Chicago Cubs, who were silenced in twin, 2-1, losses to the St. Louis Cardinals. Thus, falling into third place in the N. L. East.

And the thunderstorm that drenched the St. Louis area soon afterward fell on a hushed Cub clubhouse, where Leo Durocher mused over his club's diminishing hopes in the National League's East Division race.

"We had our chances, we couldn't have asked for any better chances," said Durocher, whose team dropped 2 1/2 games behind the Pittsburgh Pirates and into third place behind the New York Mets.

"You can't ask for much better pitching tonight than what we got. We simply couldn't produce when we had the chances, and that was that."

Bob Gibson (23-6), became the first Cardinal in 34 years to win as many as 23 games, as he allowed only Glenn Beckert's triple leading to a run in the fourth and Joe Pepitone's one-out single in the seventh. Ferguson Jenkins, 20-16, took the loss while pitching a seventh.

Gibson was backed by some outstanding defense.

# SEMO Teams Rate Among States Elite

Southeast Missouri prep grid teams marched into the state ratings, conducted by the Missouri Sportswriters and Broadcasters association, today.

Cape Girardeau Central leads a contingent of five SEMO powers into the season's second poll after being the lone representative last week. The Bengals are rated seventh in the 4A class with a 2-0 record.

Charleston, Sikeston's opponents at Public school stadium tomorrow night, rates fourth in the 3A class while Dexter is ninth in the same class and both are undefeated in two games.

Malden, the runner-up in the 2A state playoffs last season, is tied with South Shelby for the top rating in the class. The Green Waves defeated South Shelby in last year's state semi-finals.

East Prairie, one of the big surprises in the young grid season, is rated fifth in the 2A class.

All four of the SEMO teams are unbeaten in two games but face stiff competition this week. Central goes to Parkway West; Charleston faces Sikeston; Dexter is at Caruthersville; Malden travels to Piggott, Ark. and East Prairie treks to Hayti.

St. Louis McCluer, the state 4A champs of last season and semi-final winner over Cape Girardeau Central, is rated the best in state and tops in the 4A class.

# Explosive Falcons Face Tough Tigers

AIR FORCE ACADEMY, Colo. — A surging Air Force Academy football team, fresh from one of its most explosive attacks in its young football history, will be seeking to carry its high-scoring momentum into St. Louis Saturday against nationally-ranked Missouri.

The Falcons improved their season record to 2-0 last Saturday by coming from behind twice in the first quarter to defeat Wyoming, 41-17, the first defeat the Cowboys have been handed on their home turf in six seasons.

Air Force set a school total offense record with 564 yards, sparked by senior quarterback Bob Parker and flanker Ernie Jennings, but will face a much sterner test against the Tigers of Missouri, who also are 2-0 after victories of 38-0 against Baylor and 34-12 against Minnesota.

A sellout crowd of 48,000 is expected for the 1:30 p.m. (CDT) kickoff at Busch Stadium, home of the pro baseball and pro football Cardinals.

"It was a great win with some spectacular plays," said Falcon head coach Ben Martin following his victory over the Cowboys. "The poise the offense showed was something to behold."

The Falcons, who fell behind 7-0 and 14-7 in the opening quarter against the aroused

Cowboys, came up with plenty of long gainers including touchdown passes of 80, 55 yards and 47 yards plus another 60-yard reception that didn't score. The triggerman was Parker, but he tossed his scoring strikes to three different receivers.

"Missouri may be the toughest team we'll play this year," said Martin about his upcoming opponent. "They've got a big, strong line and Joe Moore, their outstanding runner, is a good, strong power runner of the O. J. Simpson type. He can make the tough yardage."

It will be the first game the Falcons have ever played on artificial turf although they do have an indoor practice facility with that type of surfacing. Martin indicated that the Falcons will make good use of it this week.

This will be the second game of the season for the Tigers at Busch Stadium, blanking Baylor there in the season opener.

The Tigers lead 4-0 in the series but it has been a tough one, as illustrated by last season when Missouri won 19-17 with a field goal in the last 11 seconds after Air Force had gone ahead with only 32 seconds to play.

Two of the Falcon standouts against Wyoming were senior quarterback Bob Parker of West Covina (Edgewood), Calif., and senior flanker Ernie Jennings of Kansas City, (Central), Mo.

Parker, a reserve last season, set three school records against the Cowboys, completing 18 or 35 passes for 391 yards and three touchdowns. He wound up with 353 yards total offense for the game, and passed 80 yards to Jennings for a touchdown for other school marks. Parker also passed 65 yards to Brian Bream and 47 yards to split end Mike Bolen on other scoring strikes.

Jennings, who caught three touchdown passes against Idaho, wound up with eight catches for a school record 235 yards, coming up with several sensational grabs. He also had a 60-yard catch that didn't score.

Bream, a junior tailback who was sidelined in the first game because of a leg injury, also scored once on a run and had his best day as a Falcon ballcarrier, gaining 160 yards on 22 carries, including 118 yards in the first half.

Another strong point for the Falcon was the punting of Scott Hamm, playing for the first time since suffering a knee injury against Missouri last year.

## MU Coaches Concerned

By THE ASSOCIATED PRESS  
Rainy weather continued to figure in several Big Eight practices Wednesday, and at Missouri coaches were concerned the Tigers would not be ready offensively for Air Force because of the curtailed workouts.

They said the offense needs to scrimmage in order to sharpen its timing and execution.

The Tigers also were forced to practice inside last week, and it took them the first half to warm up before clobbering Minnesota in the second half 34-12, coaches said.

Coach Johnny Majors at Iowa State also complained about the wet weather.

"We have sure had our

## Ali Heads For N.Y.

MIAMI BEACH (AP) — Muhammad Ali took time out from training and weight reducing today to fly to New York, hopefully to pick up a renewed license to fight there.

Overweight, but still sleek, the former heavyweight champion planned to apply to the New York Boxing Commission today and said, "It's nice to know you're going to be allowed to perform your trade again."

Ali, who won the title in 1964 as Cassius Clay, was stripped of the crown in 1967 after refusing to step forward for the military draft.

The 28-year-old Ali has been conducting an exhausting training for his Oct. 26 comeback bid against Jerry Quarry in Atlanta.

### NOW BASKETBALL

Hermann, who claimed the Class M championship last season and finished unbeaten in 33 games, is expected to be as strong or stronger this season.

St. George high school, which won the Class S title two seasons ago, has been dissolved. Thus adding to the basketball program at Hermann Public.

A big plus before the season even starts is all-stater Phil Horton, who has been a starter for three years at Hermann, during which time the team has posted a 92-6 record and 65-1 over the past two seasons.

Horton averaged 19 points and 16 rebounds a game last season.

On the Class S side .... New Haven returns all-stater Mark Pehle along with two other starters.

Vashon will be one of the Top L teams this season with the return of Rosco Simmons, who averaged 25 points a game last season. They'll be coached by former MU cage star, Ron Coleman.

Well it seems that Sikeston high school's athletic program will continue to decline ... As we've heard nothing of re-activating the junior high athletic program.  
Isn't it a shame .....

After two weekends of the high school football season, 64 teams of the 291 entered in the MSHSAA Playoffs are unbeaten in two games. Sixteen are in Class A, 18 in Class AA, 17 in Class AAA and only 13 in Class AAAA. This includes only those teams who are 2-0-0.

Of this group twelve are unscored on. They include, Orrick, Smithville, Case Midway of Westline, Sarcouxie, Cameron, Sherwood of Creighton, Versailles, Cape Girardeau Central, McDonald Co. of Anderson, CBC of St. Louis and St. Louis Beaumont. Washington is also among the group. Palmyra, Caruthersville and St. Mary's of St. Louis each are unscored on, but stand 1-0-1 having played a scoreless tie against their two games.

Eight teams in the state have not scored in their first two games.

Crystal City's Arvel Popp, a veteran of many years as both football and basketball coach, has a 122-51-10 career mark in football for 20 years as head coach at Crystal City. This year's club could be his best ever with Mark DeMent as a strong 2-A candidate for All-State at a half-back spot. Popp is famous for having produced Danny LaRose in football and Bill Bradley in BB.

Columbia Hickman held St. Joseph Central to only 28 yards of total offense in their 1-30 win over the Indians Friday. Eleven yards in the air and 17 on the ground. The game marked the coaching debut as H. T. Muir as head man for St. Joseph. He was a former assistant in Jefferson City.

Bob Roark of Columbia in his 23rd season as head man for the Kewpishas a 159-47-7 career record.

Having won their first two games this season, Jefferson City has helped to improve Pete Adkins' career coaching mark in the Capital City to 110-6-2. Adkins has lost only 16 games in 17 years of coach. Five at Centralia and 12 at JC.

Shanley High School of Fargo, N.D. had their 54-game consecutive winning streak snapped by Grand Forks, 0-0 last week. They were chasing Jefferson City's National Mark of 71-set from 1958 to 1966, without a tie. Bedford County, Tenn. won 78 in a row from 1956 to 1963, but some of it was against teams that were not recognized on the interscholastic level. They also had two ties.

Best line about the Shanley - Grand Forks game from Shanley coach Sid Cichy, whose son is the star player on the team. Cichy said "For five years I've thought about what I would say when we finally lost and I had decided long ago what to say, but then the tie loused everything up. I had planned to say, Well, you win some and lose some." How about that for a sense of humor.

The Shanley game was played at North Dakota State University field on a Friday night. On Saturday afternoon, Concordia College and Moorhead State played to a 20-20 tie and on Saturday evening on the same field, North Dakota State tied Eastern Michigan 14-14. All three clubs were unbeaten in 1969.

Games that are cancelled because of school not opening will NOT count in playoffs.

Cape Girardeau appears as the team to reckon with in the Southeast part after shutout wins from Festus and Carbondale, Ill. ... Cass Midway, defending 1-A champ, has now won 25 in a row. South Holt of Oregon snapped Tarkio's 20-game streak with an 18-6 win Friday. Chillicothe won its 21st straight, beating Bishop LeBlond (Formerly CBC) of St. Joseph 26-6. JC has modest 10 game streak. ... Three of state's top QB are in Central Mo. Conference. ... Roger Walton at Hannibal, Randy Allen at JC and Columbia's Louie Onofrio.

## Yanks Clinch Second; Fun Year For Houk

By TOM SALADINO  
Associated Press Sports Writer

After five years of frustration, manager Ralph Houk of the New York Yankees admits that the 1970 season has been a fun year for him.

"The way the kids are playing," said Houk, "the season, especially near the end now, has been lots of fun."

The Yankees, not counted on to be contenders in the American League East, after finishing fifth a year ago, clinched second place Wednesday night, dropping the Washington Senators 6-4 for their sixth straight triumph.

It gave Houk's youngsters an 89-67 mark, their best record since the last New York pennant-winning club of 1964 which finished 99-63. The Orioles lead the Yanks by 12 games but New York was the only club to make any kind of a run at Baltimore earlier.

The Yankees won it on rookie Jim Lytle's two-run double and RBI triple. Another rookie, Frank Baker drove in the final New York run. Rob Gardner, just recalled from their Syracuse farm club, picked up the triumph in his first start. He was touched by a three-run homer by Mike Epstein and a solo blast off the bat of Dick Billings.

The victory earned the Yankees about \$1,200 per player for their second place finish.

In other AL games, Boston lost to Cleveland 5-2, and combined with the Yankees' victory, eliminated the Red Sox from the second place battle. Minnesota topped Oakland 7-4, Chicago blanked Kansas City.

## A-State No. 1

### ASSOCIATED PRESS

The Arkansas State Indians, 53-14 winners over Wichita State in their opening game, lead the first weekly edition of The Associated Press' small college football poll by a thin margin over Montana.

The committee of sports editors and sportscasters voting across the nation gave Arkansas State four first-place votes and Montana three. Twelve of the committee members voted.

Montana whipped Northern Illinois 30-6 for its second straight victory after disposing of North Dakota in its opener 28-7.

The point totals, figured on 20 for first, 18 for second and so on down to one for 15th place, showed Arkansas State with 172 and Montana 160 points.

Akron, winner over Temple 21-0 and Butler 34-0, picked up two firsts and a total of 134 points for third place.

The 1968 and 1969 small college poll winner, North Dakota State, drew one first place vote and 117 points for fourth position. The Bisons were held to a 14-14 tie by Eastern Michigan in their opener and then whipped Montana State 30-8 last week.

### NBA Raises Fines

CHICAGO (AP) — The expanded National Basketball Association has set a base for championship playoffs, reiterated that a merger with the American Basketball Association is not near and announced that total agreement was close in negotiations with the players association.

The Board of Governors, in a one-day meeting Wednesday, also empowered Commissioner Walter Kennedy to levy a \$10,000 fine against any club "hiding players" by signing them to personal service contracts and assigning them to minor leagues.

This form of red shirting previously was limited to a \$1,000 fine by the NBA constitution.

"We never have had such causes brought before us, but the \$10,000 fine puts teeth into it if we ever need to crack down," said Kennedy.

In a close vote, the NBA decided to send two teams instead of three from each of its four new divisions into championship playoffs.

The circuit has been expanded this season by addition of Buffalo, Portland and Cleveland with two divisions in an eastern conference and two in a western conference.

The exact format of the playoffs is yet to be determined and probably will be announced at the All-Star game in San Diego, Jan. 12.

Kennedy said the proposed merger with the ABA "must await approval by Congress of a single pro basketball league."

"We don't anticipate this action before next summer at the earliest," he added.

league shutout, blanking Kansas City 5-0 while his Chicago teammate, veteran Luis Aparicio, eyalued the all-time major league record for games played by a shortstop with 2,218.

George Mitterwald slammed a three-run homer and Tom Hall gave up only two hits in the Twins' triumph.

Hall, 10-6, pitched hitless ball until Bert Campaneris ripped a homer with two outs in the sixth. After a three-run blast by Dave Duncan—the second hit—in the eighth, Bill Zepp relieved to preserve the triumph.

Tony Oliva ripped three hits for the Twins, inching his average up to .324, one point behind league leader Alex Johnson of the California Angels.

# Mets Close Within 2-Games of Pirates

The whispered story of the 1969 baseball season was that supernatural... perhaps even divine ... help moved the New York Mets to the world championship.

There is a possibility now that the National League East race has reached the nitty gritty stage that the Mets are getting some extra help again.

—Item: The Mets, trailing Philadelphia 4-3 Wednesday night, find old friend Dick Selma on the mound at the start of the eighth inning. Selma, loser in the ninth the night before and fined \$500 for his popoff after the game, promptly surrenders a two-run homer to Donn Clendenon and the Mets win, 5-4.

—Item: Pittsburgh, trailing Montreal 3-1 in the bottom of the ninth, scores a run on Coco Laboy's throwing error and has men on second and third with one out. Reliever Mike Marshall calmly strands the tying and winning runs by retiring pinch hitters Jose Pagan and Gene Clines to save the Expos' 3-2 victory.

—Item: Chicago, 2-1 losers to St. Louis and Bob Gibson in the first game of a doubleheader, trails the Cards 2-0 in the ninth inning of the nightcap. Glenn Beckert singles and Billy Williams tags his third double of the game. A wild pitch scores Beckert and advances Williams, the tying run, to third with none

out. Rookie Jerry Reuss calmly mows down the next three hitters to nail down the victory.

—Item: The Mets who were in third place, 3 1/2 games out with nine games to play and reeling on Monday, are second, two games out with seven games to play and alive again today.

Elsewhere in the National League Wednesday, San Diego shut out Atlanta 2-0, Cincinnati belted Houston 6-2 and San Francisco went 10 innings to beat Los Angeles 14-10.

In the American League, Chicago shut out Kansas City 6-0, Cleveland tripped Boston 5-2, New York whipped Washington 6-4 and Minnesota whipped Oakland 7-4. California at Milwaukee and Detroit at Baltimore were postponed.

The Mets were behind 4-1 against the Phillies but knocked out Chris Short with a two-run rally in the sixth. Ironically, Clendenon, whose 21st homer won the game two innings later, crippled the early rally by slamming into a bases-loaded, noneut double play.

Selma, in a postgame tirade the night before, questioned the judgement and integrity of the umpires and said they had fixed the game.

The outburst resulted in his fine by NL President Chub Feeney and nearly caused a walkout by the four umpires. Selma apologized in writing for

the remarks, which he said "had no basis" and were made "in a fit of anger."

His comments were more reserved after Wednesday's game.

"I threw a curve ball and it hung," he said, claiming his clash with the umpires had not affected his performance. "Yesterday was yesterday," said Selma, "today is today, and tomorrow is an off-day, thank God!"

An interesting choice of words.

Pittsburgh came close but could not quite catch Montreal. Carl Morton, who won his 17th, carried a 3-1 lead into the ninth with a pair of hits by Don Hahn keying two Expo rallies.

Willie Stargell and Manny Sanguillen sandwiched ninth inning singles around a pop up and Laboy's throwing error scored one run and left the Pirates in position to win it on a hit. But Marshall bore down to get Pagan on a fly ball and Clines on a line drive to end it.

"I have no complaints," said Pirate Manager Danny Murtaugh. "We had a shot at them and didn't make the most of it. The Lord helps those who help themselves."

An interesting choice of words. Gibson simply overpowered the Cubs in the first game, 40th homer for the Reds.

permitting just two hits. The big right-hander struck out seven and walked three en route to his 23rd victory of the season.

In the nightcap, Reuss permitted seven hits including three doubles by Billy Williams but bore down in the clutch, especially the ninth when he got Ron Santo, Jim Hickman and Tommy Davis with the tying run on third.

"We had enough chances," said Cub Manager Leo Durocher. "I couldn't have asked for any better hitters coming up in the ninth than Santo and Hickman."

The double loss pushed the Cubs to third place, 2 1/2 behind with eight to play. The Mets and Pirates each have seven left with New York two behind. Chicago plays St. Louis and Pittsburgh takes on Montreal today while the Mets are idle.

"It looks like two of them are going to give it away," said Montreal Manager Gene Mauch. "I think it might wind up in a three-way tie and that would be the best way to decide it."

San Diego used home runs by Clarence Gaston and Dave Campbell to beat Atlanta with rookie Steve Arlin scattering seven hits to get the victory.

Pitcher Tony Cloninger drove in two runs with a homer and single, moving Cincinnati past Houston. Tony Perez hit his 40th homer for the Reds.

## 100 Hear Outline of Amendment Three

An informational meeting for teachers, Sikeston R-6 board of education members, and others was held last night at 7:30 p.m. at Sikeston High School on constitutional amendment number 3.

Approximately 100 attended. Ralph Ford, Cape Girardeau, a member of the executive committee on the Missouri State Teachers Association, and John Cozcan, Columbia, a public relations coordinator from MST, led the discussion.

Questions relating to the feasibility on revising the financial structure of the state in relation to school financing and the effect on such schools as Hazelwood and St. Charles in St. Louis county if the amendment is not passed were brought out.

"The way things are going, Hazelwood may have to close down Oct. 5 if their well runs dry," Roger Sherman, principal, said. "If the amendment is

passed, it would be three weeks after the school closes and if it doesn't pass, what happens to the school?"

At present, boards of education in school districts can levy up to \$1.25 without voter approval and an additional levy up to \$2.50 may be levied by a majority vote. Under the new amendment, boards of education in these districts can levy up to \$1.85 without voter approval and an additional levy up to \$3.70 may be levied by a majority vote.

Under the current constitution, only a majority vote is needed to triple the \$1.25 levy to make it \$3.75. A two-thirds majority is needed for any levy over \$3.75.

The new amendment allows a levy up to \$1.85 without voter approval and permits a simple majority vote to triple the levy which would raise it by \$3.70 to make it \$5.55.

## Aide Refutes Rumors Hardin To Quit Job

WASHINGTON (AP) — Despite a flood of rumors, Agriculture Secretary Clifford M. Hardin does not plan to quit his job to take over as head of Purdue University or any other institution, says one of his top assistants.

Aide Herb Plambeck said Wednesday in a statement given to newsmen who had asked about Hardin's plans:

"I am authorized to say, in spite of persistent rumors, that the secretary's name is not under consideration for the presidency of Purdue University."

Furthermore, Plambeck said, "It is his intention to remain in his present post so long as the President feels he can be useful."

Reports that Hardin might quit the Nixon Cabinet to head up Purdue at Lafayette, Ind., have circulated for months and recently became more persistent.

Other sources close to Hardin say Purdue has never officially offered the job to him but acknowledge that private individuals from the university have felt him out on the possibilities.

Friends close to the family say the Hardins enjoy the Washington scene and intend to purchase a home here.

"It's natural that he be mentioned for the Purdue job," one source said. "After all, he went to school there and is one of its most distinguished graduates."

Hardin, who will be 55 next month, joined the Cabinet after 15 years as chancellor of the University of Nebraska.

Though active in academic circles all his professional life, friends say it is not likely he will return to the university atmosphere even after his Cabinet service.

If the Nixon administration continues two terms, Hardin would be 61 in 1976, still a prime candidate for university posts. The chances seem to be, according to associates, that Hardin might head for a foundation job at that time.

Hardin was a trustee of the Rockefeller Foundation until giving it up after joining the Cabinet last year.

## Congress Urged to Close Tax Loophole

WASHINGTON (AP) — Congress has been asked to close a loophole through which many physicians apparently try to cheat on federal income taxes by failing to list all money received from government health programs.

A Treasury Department official told the Senate Finance Committee Monday an audit revealed about half the physicians surveyed who received \$2,000 or more from medicare and medicaid in 1968 failed to list all such income.

Meade Whitaker, tax legislative counsel for the Treasury, urged the committee to write into a pending Social Security bill a provision requiring all persons to report payments of \$25 or more to the Internal Revenue Service. This, he said, would permit the use of data processing to search out those who fail to include such payments on tax returns.

A similar provision was written into the 1969 tax reform bill but was knocked out in conference because insurance firms objected such reporting would be too costly for them.

The future of the Organization of American States and the Western Hemisphere Defense Board would become extremely problematical, he added. The United States is keeping a close watch on the situation, but the official said at this point its influence is not too great in Chile.

Giraffes have eyes which enable them to see behind, in front and to the sides without turning their heads.

WASHINGTON (AP) — American officials view the Chilean election of Marxist Salvador Allende as marking the possible start of a large Latin American Communist bloc of nations.

In addition to Chile, officials mentioned Peru, Argentina and Bolivia as candidates for Communist domination.

An assessment of Allende's impact on Latin affairs came from a high American official who briefed Midwestern publishers, editors and broadcasters in Chicago. The White House-organized background was presented Wednesday, but ground rules prevented release of what was said until the weekend.

Although President Nixon was involved in some briefings, he was not on hand for the Allende analysis.

## Malaria Cases in U.S. Rises Sharply

ATLANTA, Ga. (AP) — A total of 3,806 cases of malaria in the United States and Puerto Rico was reported in 1969, an increase of 1,196 cases over the previous year, the Center for Disease Control says.

The center said in its weekly morbidity and mortality report that the increase "was due entirely to a greater number of military cases imported from Vietnam."

Dear Charlie,  
When will people wake up and realize that they are living in the 20th Century and not in the Dark Ages? I am referring to the recent decision by the staff of Sikeston's grade schools to send any first grade students who did not attend kindergarten last year back to kindergarten for this school year. They would then be allowed to attend first grade next fall...one year late. The reason given for this states, children who do not attend kindergarten are far behind those who did. To catch up, these students will have to go back and attend kindergarten one year.

I can not bring myself to believe that children who attend kindergarten are that much more advanced than those who did not. When I attended kindergarten I learned to write my name, to color pictures, to play games, and to take naps.

Apparently some people think that children who have gone through this procedure are geniuses compared to those who have not.

One member of the grade school staff has already gone so far as to say that any child who did not attend kindergarten will be ignored this year and consequently will be failed at the end of the year. To me this is outrageous! I think that a child can certainly learn more in first grade than he can in kindergarten, don't you? I can only hope that teachers who support this policy will wake up and realize that they are teachers and that it is their job to teach. Those who cannot realize this certainly are not very good teachers. One teacher has even commented that she does not have the time to mess with children who have not attended kindergarten. Perhaps she should go back to college and learn that teaching a child to write his name is part of her responsibility. If she cannot find time to do this, she does not need to be teaching.

Sincerely,  
Deborah Hill

### More Highway Protection

ST. LOUIS (AP) — Members of families that have suffered loss of life or injury as a result of traffic accidents organized Sunday to campaign for more stringent traffic safety measures, strict enforcement of traffic regulations and changes in laws governing driver responsibility.

Robert Dickey of Ste. Genevieve was named temporary chairman of the group, called the Highway Accident Victim Protective Association.

The association will work to change the state's alcohol blood test law to conform with a more stringent federal procedure for determining the degree of intoxication. It will strive for improved methods of investigating traffic accidents and determination of negligence.

Also, the association will work for improved statewide ambulance service, medical examiners instead of coroners and an agency to handle complaints of accident victims.

Dickey, a former member of the Missouri Highway Patrol, said improved investigative methods are essential to aid victims in obtaining insurance claims.

George Rouse of Cape Girardeau, an ambulance company operator, said there is a need for improved emergency service throughout the state. He also outlined the problems private ambulance firms encounter in dealing with state and federal laws.

Rouse said operating costs are forcing many private companies out of business. He cited insurance rates and federal wage and hour requirements as major causes of increasing costs.

## About Our Schools

By Lynn Twitty

Last year our first payment of state aid equaled 48% of our total apportionment and amounted to \$598,541. This year it was only 33.5% or \$174,908 less than we received for the same period for the preceding year. Other schools in the state were cut proportionately.

The reason for the shortage is the crisis in the state treasury because of lower tax collections, increased costs, etc.

Unless there is some action by the state legislature to increase revenue for schools, it is most probable that there will not be enough money in the state treasury to pay even the reduced apportionment that the schools were promised this year and on which our lowered budgets were planned.

Our budget in this school system was cut to the bone because of reduced state revenues, but at least we expected to get as much as the General Assembly apportioned.

To compound our problem, we still do not know that local tax receipts may be as much as we originally figured, estimated on the valuation which was current when our budget was planned. Since that time a re-evaluation study has been made under the direction of the State Tax Commission and the county court. Our information now is that farm land valuations in Scott County are generally lower. If this trend also includes other property, we can then expect a reduction in local tax receipts. A cut in state revenue and a possibility of one in local taxes, if this occurs, will place us in a very critical, deficit financing situation. If the people than want schools of any quality, some increase in local tax receipts would have to be made for the coming year, that is unless the General Assembly does something about increasing state revenue for schools. We have never faced a more

uncertain financial situation in our experience and unless some improvement in school funding is made at either or both the state or local level, the future of education in Missouri and consequently opportunities for our children are dim indeed.

Last week it was announced that the Board of Education's Manpower Development Training Act program was granted \$747,228 for the purpose of training 255 adults in various skills to enable them to earn a living.

Not only would these 255 trainees benefit from this grant, to become self-sufficient wage earners, consequently support themselves, their families, then become taxpayers or contributors to the economy but local businessmen, professionals and farmers will likewise gain from this "shot in the arm" to the local economy.

The Chamber of Commerce estimates that a dollar coming

into the community, normally passes through about seven hands, cash registers, etc, before it goes out. On this basis, the area economy will benefit to the extent of \$5,090,596. It would take a pretty good industrial payroll, or a lot of farm production to equal this figure. Sometimes we are inclined to forget the economic impact of our schools.

Of course, it is all tax money, it comes from the taxpayer, but the fact is that the money is spent when it is appropriated by Congress and unless our Board of Education makes every effort to get as much of this money as they can, first of all to educate those who need and will benefit by the knowledge and training, and secondly to help our economy we are the losers. It is also a fact which we can prove that the schools are bringing into the community, amounts that far exceed the taxes the local citizens pay for education.

Over 85% of those students who have successfully completed our vocational courses have been employed following their training here.

The availability of the vocational programs sponsored by our Board of Education have

also been factors in attracting industry to the community. Another plus for the programs.

Many school districts in the state have not as yet been able to pass their tax rates and consequently, are faced with either a few months of school or none at all. These school districts enroll almost 100,000 girls and boys. Hickman Mills, with almost 15,000 pupils, has already lost its seventh tax levy election and has set up an eighth try. There are at least seven or eight others who have yet to establish a levy because of defeat at the polls. Unless they are able to pass reasonable levies, they can not operate for more than a couple of months each, some can not operate at all. The reason for this is that a school tax rate now required to support a reasonable school program, must pass by a 2/3 majority. One negative voter can cancel out two votes for education. Missouri is one of only seven states with this unreasonable requirement. Almost everything

else, even the election of a president, is possible by a simple majority. In fact, the president can be elected with even less than a majority as the incumbent president was. Yet, if Missourians are to educate our children, those who believe in this, must muster two votes for one voters who does not want to support the schools.

Constitutional Amendment No. 3, which will be on the ballot November 3, would reduce the requirement for supporting schools to a simple majority, the usual democratic process of majority rule. The taxpayer would be protected in that a majority of the voters would be required to approve the tax rate each year. The passage of Constitutional Amendment No. 3 and Constitutional Amendment No. 4, which provides that if a school tax levy is defeated, the rate would then not go below that approved by voters at the last previous election, would benefit schools.

Mr. Charles Blanton  
Daily Sikeston Standard  
Sikeston, Missouri 63801

Dear Mr. Blanton:

This is in answer to a letter written by a Mr. William Anthony Young from Oran, Mo., which was printed in Tuesday's paper.

Mr. Young, I'm sure that a lot of what you said is true. Of course, a good deal of it is your personal opinion; but we're all entitled to our own opinions, aren't we?

I have just a few questions I would like you to answer. First of all, just what is a "penny-anty" offence? When you break the law, Sir, you break the law. I know some policemen get slightly "carried away" just because they carry a gun and a badge, but did you ever stop to think that they're only human? A majority of the people think our policemen should be "superhuman" but they get tired and aggravated and disgusted and sick just as you and I do. It's not an easy job to be a good policeman, and policemen aren't easy to find. Not everyone wants to work eight hours a day and put up with all the malarky they put up

with for pennies a day. Not everyone wants to work overtime any time you're ordered to for absolutely nothing.

Sure, there are bad policemen just like there are bad everything else; but, don't you see, they're the minority group.

You also say in your letter that a lot of the policemen are more than ready to give out tickets to you if you're an

out-of-towner or if they just don't like you. Well, I'll let you in on a little secret, Mr. Young, these men have to have concrete facts and details when they arrest someone and when they write up their reports. As I said before, Sir, if you break the law, you break the law.

I also realize that most of the so-called "Big shots" run red lights and speed and thing of this nature and that they also get away with it - but you can't blame that on the policemen; go to a higher source in the city to find out an answer for that one.

I want to thank you, Mr. Young, for taking the time to write that letter you wrote, but I also want to say I think you'd better get your facts straight before you start accusing our policemen of a lot of things.

You see, I'm right in the middle of it all - I'm a policeman's wife.

### Parked Vehicles Hazard for Driver

**ELECTED CHANCELLOR**  
SYDNEY (AP) — Sir Robert Webster has been elected Chancellor of the University of New South Wales. He had been Deputy Chancellor for 10 years.

Sir Robert is one of Sydney's top businessmen. He is the chairman of directors of Bradmill Industries Ltd., F and T Industries (Aust.) Ltd., and Berlei Ltd.

Dorothy Faye Sexton, 22, Bloomfield, driver of a 1964 Plymouth, was in an accident, involving two parked vehicles, at 3:35 p.m. yesterday on route J, six miles west of Bloomfield.

She came up behind an unidentified vehicle that had stopped on the road. She swerved her car to miss the car, left the road and struck a parked 1968 Chevrolet pickup truck.

Two of her children were injured, Roberta Lynn Sexton, one, with head cuts and Jean Ann Sexton, four, face cuts.

Both were treated by a Bloomfield physician. The driver was given a summons for careless and imprudent driving.

Trooper Robert Gene Little, 28, Portageville, escaped injury, in an accident today at 2 a.m. on Interstate 55, six miles north of Hayti.

He was driving a 1970 Buick when the tread came off a left rear tire, causing him to lose control, go off the road and strike a guard rail. The vehicle overturned in a drainage ditch in two feet of water.

A 1958 Mack tractor trailer, driven by Curtis O'Neal, 62, Piggott, Ark., loaded with a caterpillar tractor, went through a bridge Wednesday at 11 a.m. on a country road, six miles west of Malden.

The driver received cuts on

his arm. He was treated at the Piggott hospital and released.

The highway patrol reported that 100 canoes, that were docked at Akers Ferry Resort in Shannon county, broke loose after 4:30 a.m. today and floated down Current river.

The rapid rise in the river from heavy rains caused the boats to break loose.

The American slang expression O.K. originated a century prior to its common use by American soldiers during World War II. The World Almanac says the term was derived from President Martin Van Buren's birthplace in Old Kinderhook, N.Y. The term became a party slogan used by Van Buren's followers during the presidential campaign of 1840.

## Five Named To Serve on Peach Board

JEFFERSON CITY — Thirty peach growers, representing 90% of the total peach production in Missouri, met at Campbell and elected five members to serve as governing board of a State Peach Merchandising Council. The newly created Council resulted from successful referendum conducted the first week in September.

The Missouri Department of Agriculture will cooperate with the Merchandising Council in collection of an annual fee of three (3) cents per 50 pounds of salable peaches from all growers. Fees on the 1970 harvest will be due October 15, reports Gene Thompson, acting director of the MDA Marketing Program.

According to Thompson, there has been a steady increase

in Missouri peach production since 1930 when 19,000 bushels were harvested. In 1969 the total production topped 450,000 bushels, he said. The fees will be used by the Merchandising Council to promote research, publicity and marketing of Missouri-grown peaches.

Elected to serve on the governing board were: Carlton Stewart, Campbell, for a five-year term; Stanley Beggs, Jackson, four years; David Risley, Campbell, three years; Jim Thornton, Campbell, two years; and George Levens, Dexter, one year. Ex-officio members of the board will be the Commissioner of Agriculture, the Dean of College of Agriculture at the University of Missouri, Columbia, and the Director of the State Fruit Experiment Station.

## Increased Baby Pig Production To Continue

WASHINGTON (AP) — Corn Belt farmers plan to continue increased baby pig production this winter promising abundant pork supplies next summer, the Agriculture Department said.

The Crop Reporting Board said Tuesday corn belt farmers during September - November plan to have 13 per cent more sows give birth than last year.

Farrowings are expected to rise by 6 per cent during December - February, the report said.

The pig crop produced between June 1 and Sept. 1 was estimated at 18.1 million head or 14 per cent more than in 1969.

## Cairo Police to Return Sniper Fire

CAIRO, Ill. (AP) — Cairo citizens were warned by their mayor that city policemen would return sniper fire from now on and "People living in areas where sniping originates should either vacate the area or take cover." Mayor Pete Thomas issued the statement following a meeting with Cairo's policemen and Police Commissioner Carl Meisenheimer. The police had complained they were confused about what policy should be followed when sniper fire occurred.

Meisenheimer said "Any time our policemen are fired on or observe anyone shooting —

# Answers from your Crop Advisory Center

Got a question about fertilizer, seed, tillage, insect or weed control?

Talk it over with your CFS Crop Advisor. He has the latest research information, knows this area, knows how other farmers are handling the same problems. And he has a straight line of communication to top agronomists at the CFS headquarters — men who are trained to come up with practical answers to the toughest problems.

Your CFS Crop Advisor is ready to help you now. Let him know your problem. He'll

get the answer . . . fast. More than that, he'll be glad to work out a complete Plan and Profit Program for you — take soil tests, recommend the proper fertilizer, work out your chemical control program, help you select seed varieties . . . chart a complete crop production program in advance. A program that cuts time and work for you . . . gives your crops what they need for top yields.

Stop in today. You're always welcome at the CFS Crop Advisory Center!

The Feltz-Black skating rink decided last Saturday to remain in Sikeston one additional week. A six-weeks lease which expires next weekend will close the local season. A total of 156 pairs of skates were in use Saturday and night, which may account for the decision to remain seven more days. J.W. McCall of Alabama, enroute to Chicago,

and self-styled expert on wheel clad shoes, stopped over to challenge Garland Roscoe to a 10-lap race Saturday night. Roscoe took an early lead and amused the audience by finishing the race, skating backwards. Layton Finley defeated all contenders in a speed race Saturday night to retain his title of champion amateur in the city.

Morehouse - Pat Davis of Sikeston was a visitor here Friday.

Charleston - Mrs. Laura Dunaway has returned from a visit in St. Louis.

Morey - The Rev. Harx of Puxico preached at the Methodist Church Sunday morning.

Pfc. Robert Whitson, 17, son of Mrs. Wilbur Whitson, Miner Switch, was killed in action in Korea on September 13, according to a telegram sent to his parents from the Defense Department Saturday.

Four Sikeston men in Armed Force reserve have been recalled to active duty it was learned here today. R. A. (Bob) McCord, former Sikeston coal dealer, has been called up by the Air Force. Herbert H. Teachout and Eugene Holland, both of Sikeston, also have been recalled. Another reservist who has received orders is Alfred J. Ryan, son of Mrs. Ida Ryan, 137 North street.

T. M. Solomon was guest of honor yesterday at a dinner in celebration of his 86th birthday, which will be Wednesday.

A party was given Friday afternoon for Beverly Ann Stancil on her third birthday, in the home of her parents, Mr. and Mrs. John Stancil.

## Eagleton Urges Medicaid Cut Ban Be Lifted

WASHINGTON (AP) - Sen. Thomas F. Eagleton, D. Mo., proposed to the Senate Finance Committee that the secretary of Health, Education and Welfare be allowed to temporarily modify the medical aid program for the needy.

Eagleton urged repeal of that section of the Social Security Act which requires that federal funds for Medicare be cut off if a state spends less for medical assistance than it did the previous year.

The senator has offered such an amendment, prompted by what he called a catastrophic situation in Missouri.

There, Gov. Warren E. Hearnes recommended an increase of \$290,000 in Medicaid funds over fiscal 1970, when the figure was \$28.1 million, but the legislature cut that by \$3.1 million.

Eagleton's amendment would permit continuation of federal funds for one year providing the cut in state funds resulted from a fiscal emergency.

"It seems obvious to me that the goal would be better served by permitting a state in financial difficulty a limited period of time to restore its Medicaid effort than by depriving that state and its needy citizens of all federal Medicaid funds," Eagleton said.

He has been advised, Eagleton said, there are no funds available in the state treasury that could be advanced to the Medicaid program.

"To date, neither the governor nor the Department of Health, Education and Welfare has been able to discover any alternative under the present law to proceeding with a conformity hearing and a cutoff of federal funds," he said.

## The Prayer from The Upper Room

The Word was made flesh, and dwelt among us, (John 1:14)  
PRAYER: O God, we thank Thee for Thy word as given in the Holy Bible and personalized in Jesus Christ. May we study to know Thee better and reflect Thy truth and spirit among our fellowmen. In the name of our Lord, who taught us to pray, "Our Father who art in heaven ... Amen."

## Passerby Help Prison Guard Subdue Prisoner

POTOSI, Mo. (AP)—Sgt. David Gross, a prison guard at Missouri Penitentiary, probably owes his life to a man named Noel Cox of Berryman, Mo., and an unidentified man from Illinois.

Prison inmate Robert Ray, 38, will owe them something, too. Warden Harold R. Swenson said in Jefferson City that charges of attempted escape and assault will be filed against Ray. Gross was returning to the prison Tuesday from a court review in Poplar Bluff of Ray's 1968 conviction for robbery. He got a five year sentence that time.

Gross was driving west on M8 from Potosi. Ray was, the guard thought, securely handcuffed and trussed. But about five miles west of here on the rain-slick highway Ray lunged against Gross and twisted the steering wheel, the guard sergeant reported.

The car spun around and the 180-pound prisoner managed to put all his weight on the guard. Then the Illinois driver and Cox drove by in their cars, stopped and helped subdue Ray. Cox accompanied the guard and his prisoner to a service station where the highway patrol was notified.

Sheriff Steven Richards of Potosi provided an escort to Steelville and the patrol escorted the prisoner car the rest of the way to Jefferson City and the state penitentiary.

Gross, 41, is a former Army sergeant and now makes his home at Eugene, near Jefferson City. He was not injured.

## Borman Hopeful Red Cross Can Aid U.S. POWs

WASHINGTON (AP) - Former astronaut Frank Borman told Congress Tuesday war criminal charges lodged against American GIs held prisoner in Southeast Asia are "utter rubbish."

He also said, in an address at a joint session of the House and Senate, that the International Red Cross is a particularly hopeful third party to deal with North Vietnam for proper treatment of U.S. servicemen.

Borman, who recently completed a dozen-nation tour as President Nixon's special emissary, said there is no question that the Geneva convention applies to treatment of prisoners held in Vietnam.

Borman also said that although there are about 1,500 U.S. servicemen missing only 457 can be accounted for. Of the 457, he said, 376 are held in North Vietnam, 78 in South Vietnam and 3 in Laos.

There are also documented cases, he said, of 19 American GIs being murdered or allowed to die, plus recent reports of five other deaths.

Borman, who also appeared before a House-Senate session following his 1968 moon flight, told Nixon earlier this month he had gotten a sympathetic response on his international tour but no significant breakthrough.

Borman's mission was designed to get proper treatment for prisoners if he could not gain their release.

Nine former prisoners of war were invited to sit on the House floor with House and Senate members during the special session. About 80 wives of others still held prisoner or missing in action planned to watch the proceedings from the galleries.

Speaker John W. McCormack, when he announced plans for the event, called it "a manifestation of the unity of the American people and their deep resentment over the manner in which these prisoners have been treated."

The House and Senate have approved without dissent a resolution which "strongly protests the treatment of United States servicemen held prisoner by North Vietnam and the National Liberation Front of South Vietnam."

The resolution calls for compliance with requirements of the Geneva convention on POWs and endorses efforts by the U.S. government, United Nations and International Red Cross to obtain humane treatment for and release of American prisoners of war.

Among the actions protested were refusal to identify prisoners, permit a free exchange of mail, set free the sick and negotiate for the release of all POWs.

## Public Hearings Slated on Scenic River Legislation

JEFFERSON CITY (AP)—The subcommittee on scenic rivers of the Interim Legislative Committee on Recreation and Water Resources has scheduled public hearings for Sept. 28-29 in St. Louis.

Sen. Richard Southern, D. Monroe City, said the subcommittee hopes to hear from persons interested in legislation to protect and preserve the more scenic rivers of Missouri.

NEW TEACHERS in the Charleston junior high school include, from left, Dennis Wayne Long, science; Elizabeth Norville, English; Michael Maynard, social studies; and Tommy Stockton, physical education.

## Students Grants Teller Says Nuclear Volpe Says Auto's To 3 Colleges Progress Retarded Days in Center City By Ecology Fears Are Nimbered

WASHINGTON, D. C. - Bill D. Burlison, United States representative of Missouri's 10th congressional district today announced approval of \$115,701 federal funds for tenth district colleges which will aid 526 students.

The funds will provide 90 per cent of the student loan funds, and the participating college will provide the remaining 10 per cent.

Schools involved, allocation and number of students aided: Mineral Area College Flat River, \$10,763, 30; Southeast Missouri State College, Cape Girardeau, \$92,581, 440; and Three Rivers Junior College, Poplar Bluff, \$12,357, 56.

## Symington Says Nixon Policies Upsetting Economy

ST. LOUIS (AP)—Nixon administration policies to fight inflation are forcing high interest rates and turning America's economy upside down, Sen. Stuart Symington, D-Mo., said Monday.

"The current average sales price of more than \$25,000 for new homes has placed them beyond the reach of families with annual incomes of less than \$8,000, yet the inflationary spiral continues upward," Symington said.

A candidate for re-election, Symington spoke to an evening session of the Missouri State Labor Council.

He said administration policies have forced the average American to pay unacceptable prices to fight inflation.

"It would appear this deliberately engineered recession may have been in vain," Symington said.

At sea level, water boils at 212 degrees Fahrenheit; on mountain tops, where air pressure is lower, its boiling point is lower.

LAS VEGAS, Nev. (AP)—"The U.S. nuclear program is only two per cent effective," says Edward Teller. "The remaining 98 per cent of its cost of effectiveness is lost because of unfounded fear of nuclear explosions."

Teller, often called the "father of the H-bomb," told a conference of nuclear scientists Monday that the Atomic Energy Commission's plan to use nuclear explosives to free natural gas trapped in rock formations is under attack from ecologists even though it is still in an experimental stage.

He blamed "radicals and extremists among the ecologists who fear an increase in the radiation levels that is entirely unfounded."

Ninth graders of 1959 were as mature as 12th graders of 1938, according to a study reported in Encyclopaedia Britannica.

BOSTON (AP)—Transportation Secretary John A. Volpe says, "There is no question in my mind that the automobile's day in the center city are numbered."

"I'm not proposing that it be outlawed—it is too vital for our mobility for that—but I suspect that it will have to be regulated to a certain extent," Volpe told the American Transit Association Monday.

He said the alternative must be "clean, fast, efficient and safe public transportation."

PERUVIAN PRISONERS  
LIMA, Peru (AP)—Seventy-five per cent of the prisoners in Peruvian jails have not been sentenced. President Juan Velasco told newsmen recently.

"What kind of justice is this?" he asked, adding that court changes now under way should speed up justice.

## Under Twenty Platter Patter

By JEANNE HARRISON  
On this week's rundown the hits have really been scrambled. Bobby Sherman's hit, "Julie, Do Ya Love Me" has moved all the way from eighth place to the number five spot. Dawn with "Candida" also took a big jump landing in the number seven spot. Clarence Carter managed to push "War" by Edwin Starr out of the number one spot and settling in himself.

Here's the rundown:  
TOP TEN SINGLES  
1. "Patches" - Clarence Carter  
2. "Ain't No Mountain High Enough" - Diana Ross  
3. "War" - Edwin Starr  
4. "Lookin' Out My Back Door" - Credence Clearwater Revival  
5. "Julie, Do Ya Love Me" - Bobby Sherman  
6. "25 or 6 to 4" - Chicago  
7. "Candida" - Dawn  
8. "In The Summertime" - Mungo Jerry  
9. "Cracklin' Rosie" - Neil Diamond  
10. "Don't Play That Song" - Features, Inc. Aretha Franklin

TOP FIVE ALBUMS  
1. "Cosmo's Factory" - Credence Clearwater Revival  
2. "Woodstock" - Original Soundtrack  
3. "Blood, Sweat & Tears 3" - Blood, Sweat & Tears  
4. "Joe Cocker Mad Dogs & Englishmen" - Joe Cocker Mad Dogs & Englishmen  
5. "Live At Leeds" - The Who

Lauro Nyro has dusted off an old Drifter's hit, "Up On The Roof" for her newest single offering. Petula Clark says "The Song Is Love" while the Carpenters hit the folk-ballad vein with "We've Only Just Begun."

The Beach Boys' newest album, "Sunflower," ranks among their best with fine balance in the material. Al Kooper's latest is a two-record longplay well worth the listening. The funky, country, rock style of The Band is shown off to top advantage in their album, "Stage Fright." (Distributed by Columbia)

## Today In History

By THE ASSOCIATED PRESS  
Today is Thursday, Sept. 24, the 267th day of 1970. There are 98 days left in the year.  
Today's highlight in history: On this date in 1789, the U.S. Congress passed the first Judiciary Act, providing for an attorney general and a supreme court.

On this date: In 1780, Benedict Arnold escaped to the British ship Vulture after attempting to betray West Point.  
In 1784, the 12th American president, Zachary Taylor, was born in Virginia.  
In 1869, thousands of businessmen were ruined in a Wall Street crash known as "Black Friday."

In 1934, Babe Ruth made his farewell appearance as a regular player with the New York Yankees at Yankee Stadium.  
In 1941, Allied governments in World War II pledged adherence to the Atlantic Charter.

In 1955, President Dwight D. Eisenhower suffered a heart attack while on vacation in Denver, Colo.

Ten years ago: The Fidel Castro government in Cuba recognized the Communist governments of China and North Korea.  
Five years ago: Pakistan and India accused each other of violations of a U.N. cease-fire in the Kashmir area.

One year ago: A national commission on causes and prevention of violence said violence on television must be reduced.

## Hearing Set on Bid to Block Ozark Rockfest

EMINENCE, Mo. (AP) — Circuit Judge Ben Searcy has scheduled a hearing Saturday on why a permanent injunction should not be issued to halt a rock music festival planned for near Timber, Mo., Oct. 2-4. Shannon County Prosecuting Atty. Winston Buford said Wednesday that a temporary injunction had been served Tuesday on Robert H. Moore of St. Louis, Moore, the prosecutor said, is listed as the festival sponsor. Buford said the festival site has not been pinpointed except that it is near Timber about 16 miles north of Eminence in southeastern Missouri. Moore told various officials the festival was expected to attract about 10,000 persons. The festival has been advertised, Buford said, in a number of newspapers including the Los Angeles Times.

## Carter Victor in Georgia Primary

ATLANTA, Ga. (AP) — Jimmy Carter, who combined the appeal of the underdog with a four-year personal campaign the length and breadth of Georgia, is the state's Democratic nominee for governor. The 45-year-old former state senator defeated ex-Gov. Carl Sanders in Wednesday's primary runoff, scoring a victory that was surprisingly decisive. Carter, an affable peanut farmer-businessman from tiny Plains in South Georgia, will meet Republican nominee Hal Suit in the Nov. 3 general election, Sanders pledged his support to his party's choice.

## Room Damaged

CHARLESTON — Firemen went to the home of Hubert Simpson, 906 S. Olive, yesterday at 5:26 p.m. to combat a fire which started when an electrical socket shorted. There was minor damage to one room.
